## **Assembly Operator**

Nissan Motor Manufacturing UK - Sunderland  
February 2016 to March 2018

At Nissan I worked in the unit shop (engine assembly). I worked on a high pace, high intensity line making around 400 engine units a day.

I worked on various stations doing a number of different assembly tasks and quality checks whilst adhering to the standard operation procedures and also the 5S.

Ebac Group Ltd - Newton Aycliffe  
October 2013 to February 2016

At ebac I was in charge of the dispatch and goods in department, I would pick orders of dehumidifiers or watercoolers or various other items to ship via haulage. loading them via dock or outside, I would arrange all the admin necessary e.g. Pallet transport labels, invoice, Road Waybill (CMR). I would also unload wagons with goods via forklift, I would check the quality of the goods ensuring the quantity was correct with the invoice.

I would book them in using a booking in system on the P.C.  
I would then move them in the warehouse for the material handler to get.

Before this I was also a materials handler at Ebac.

Material handling involved me going into the warehouse with my forklift truck and scan gun and picking items for a kit for the production line would use to build dehumidifiers or water coolers.
