Personal Profile

Qualified Class 1 HGV Driver – 7

months experience. Highly motivated looking to broaden my experience in HGV driving. Fully flexible, reliable & committed to my passion of driving.

I have gained a wealth of knowledge with Tacho & how this works to ensure driving regulations are always adhered to.

I have previous experience in the engineer sector but have moved from this sector to focus solely on HGV driving.

I'm a hard-working, dedicated individual with an expectational work ethic.

Efficient, resilient focused and reliable.

Skills

Excellent attendance & time keeping record

Attention to detail in all my work

Work well as a team

Quick & efficient learner

Great communication skills

Active listening skills

Organizational

Resilient

Reliable & Flexible

Training / Courses

HGV Class 1 C+E – Practical/Theory - Passed (June 2022)

Employment Experience

Hingleys 1st July 2022- 24th July 2022 (In house Agency Work) – Day shifts

Within the short period of time, I worked for Hingleys I operated Class 1 only. I travelled with great distance & therefore worked alongside a coworker to ensure we adhered to driving regulations.

I transported steel/coils with the use of slidaflex coil carriers.

Reactive Recruitment – July 2022 – Current (Experience gained on agency)

Class 2 – Transporting Medical supplies on a refrigerated vehicle – travelling all over to hospital's & pharmacies. On average 6 drops per shift. I

Class 2 – Multiple Drops

Transporting Wholesale supplies – Refrigerated vehicle.

Shunting Class 1 & 2 onto bays ready for loading. This required efficiency, organization, attention to detail to ensure all workload was out on time for the drivers by morning.

Experience of Transporting Steel sheets/ Steel Bar & plastic sheeting. Class 2 .
Operating curtain slider. Multi drop.

Class 1 Slidaflex . Transporting steel sheeting. Carried out shunting when
required to support with other delivers.

Foster Haulage – October 2022 – November 2022

Main duties were general haulage of construction using flatbed trailer – Class
1

Timken June 2012- July 2022

I have worked for Timken for 10 years, providing great dedication to my role
I work Permanent night shifts which shows great resilience. I program, set & run a
number of CNC Lathes and vertical borer's and also use live tooling.
(Fanuc/heidenhain controls).

Working in a fast-paced environment which can be very demanding
I edit program's when needed, use the right tooling for set up making sure the
machines run efficiently.

In the early days of starting Timken, I carried out training to broaden my skills.
Communicated work back in an efficient and effective manner.
Thoroughly checking my work to prevent potential losses to the business.

Westley's plastics August 2009 – June 2012

Programming and setting multiple machines at one time.

Quick paced, attention to detail

Thoroughly checking finished products were to the standards expected using correct
measuring equipment.

Completing additional NVQ's to further my opportunities & development

Regularly contributed to business needs, offering overtime & night shifts when
required

Tuscelet CNC LTD-Oct 2005-Nov 2008

Operating of multiple machines in a bigger working environment

Gained a wealth of experience in reading drawings & setting up the machines from
the start with changeover of programs.

Supported, trained & guided new members of staff in the operation of machinery &
how to input data.

Great communicational skills

Trained others to a high level giving the ability then to work alone

Westley's plastics Jan 2000- Oct 2005

Gained my full experience as a CNC machinist

Undertook additional training & courses for own development

Learnt to work well with numbers

Understanding data, inputting & transferring this to the machines

Edmund's plastics 1997- Jan 2000

Factory environment working on conventional machinery, operating manual lathes, drilling machines and packaging finished products.
Edmunds Plastics was then taken over by Westley's Plastics where I continued to work however within different machining skills.

Personal Interests

I am a friendly guy who enjoys spending valuable time with my family.
I enjoy outdoor activities and have a great interest in motorbikes.
I had a great passion to become an HGV driver which I have now achieved
I like to set goals & work towards them with passion and dedication
