Personal Profile

I am a hardworking and reliable with a flexible approach. I am able to work on my own initiative and within a team. I see myself as a mature person that can easily adapt to different working environments. I am a competent driver and always able to learn new vehicles and systems when required . I am above average for fitness.

Work History

March 2021 to Present - Reclamet Ltd. Driving various class 2 vehicles and towing large vehicles. Car transporters, recovery vehicles and RoRo experience. Duties include picking up damaged, salvage or scrap vehicles in any condition and any situation throughout Kent, Sussex and London. Dealing with customers and completing paperwork like log books.

Feb 2021 – Class 2 Driver, Drink warehouse Limited. Multi drop drayman. Duties included vehicle checks, picking and loading vehicles, delivering and collecting payments. Very physically demanding.

Dec 2014 – 2017. Southern Water services, Employed as a waste water process operator. I currently lead a small team of operators and the daily running of a large scale site. My job varies widely from operating plant and equipment, checking the operation and efficiency of the site. This role also included driving various vehicles and plant, towing and operating specialist equipment.

June 2012 – Dec 2014 – Head of Security, Sheerness Holiday Park, I was employed as head of security on a holiday park. This role included dealing with any issues to the customers in out of hours taking on the general managers duties through the evening. I had to make sure company policies and licenses were met. I also had to check customers in and out of site and liaised with local authorities when required.

Feb 2010- May 2012 – Profile security limited (Port of Ramsgate). Employed as a security guard within a small team controlling the access and egress of all vehicles and personnel in the restricted area, using CCTV systems, patrolling the port and harbour, searching vehicles and persons for forbidden items and liaising with the Police and UKBF when issues arise. This role was very customer based.

Mar 06 July 2011 – HM Forces – ARMY. Employed in the Royal Engineers as a Lance Corporal. Duties ranged from various building tasks including bridge building, demolitions and construction. Other tasks included fitness, leadership skills, first aid, various computer packages, continuous training, various security roles and operations.
