Personal Profile

I am a responsible and self motivated individual with skills gained from working as a fork lift truck driver/factory worker in the manufacturing industry. Excellent customer service skills and an enthusiasm for working with the general public. I have good communication skills and am able to relate well to people of all backgrounds and of all ages. I am a quick learner who is always keen to develop new skills and learn new procedures to meet the needs of an employer and for my own professional development.

Key Skills & Qualities

- Experienced at working in a manufacturing environment
- Excellent manual skills
- Physically fit and healthy to meet the demands of a busy production job
- Team player
- Good communication skills
- UK driving license and own transport
- Flexible worker who can work shifts and weekends

Employment History

Heavy Goods Vehicle Driver 2018 - Present

Operated various Heavy Goods Vehicles including articulated lorries. Carried out extensive pre-trip inspections, identified and addressed any faults immediately upon identifying them in order to set out on a route in a safe manner. Planned and executed efficient delivery routes by considering factors such as traffic, weather conditions and time constraints. Whilst out on a trip I was responsible for completing delivery paperwork, recorded milages and assisted with loading and unloading goods using different equipment such as tail lifts, pallet trucks and electric pallet trucks. Ensured that various types of goods have been securely loaded by using appropriate equipment such as straps. As well as developing skill for an attention to detail, I have also developed strong communicational skills as I have been communicating with dispatchers, customers and other personnel in order to make on time deliveries.

Experiences gained as a Heavy Goods Vehicle driver:

- Working in Felixstowe, Liverpool, Immingham and Hull ports
- Delivered various types of goods such as sand and animal feed using tipper lorry
- Delivered agricultural equipment using flat bed
- Delivered various types of goods using curtain side trailers
- Delivered store goods using refrigerated trailers
