I am a hard working reliable person with excellent timekeeping. I have a enthusiastic positive can do attitude and I am not work shy. I like to keep busy and set a example. I have worked from the age of 15 doing part time work for BJS construction while studying for GCSE exams that lead me to a joinery apprenticeship completing my NVQ level 1&2 in joinery. We parted on good terms due to being a self employed company and still keep in touch to even this day. I had to explore other options taking my first opportunity and my next path that lead to huyton park conservative club as a barman taking responsibility for the supervisor job after just 6 months experience. In my spare time of working there I went back to college to do a plastering course gaining my diploma 1&2 diploma. I explored other options after this from warehouses to delivery driving as every response i heard from wants experience. I have my own transport and a HGV class 2 license along with my CPC and tachograph card that I paid for myself. I am adaptable and eager to learn.
