School

Collegiate High School

Blackpool Old Road

Blackpool

FY3 7LS

2006 – 2011

Level 3 Motor vehicle

Qualified m o t tester 3 years

Experience and career history

Training

Henry Boot Construction

I was placed at a construction learning scheme programme from my high school where I gained some experience doing groundwork, block paving , and making the land all level ready to be paved or filled with cement , I also gained some all round knowledge of health and safety in construction .

Also whilst at college I obtained level 1&2 Maths and English.

I consider myself as a quick learner and can work as a sole member or as part of a team; I am not afraid of hard work and can use my initiative under pressure.

March 2011 – September 2011

Apprentice mechanic

I was recently enrolled on a mechanics course at Blackpool and the Fylde College level 1&2 motor vehicle.

PLACEMENT

A&p Motors

223 Common Edge Road

Blackpool

Which involved a placement in a local garage in which I held an apprentice position

My duties at the garage included, general housekeeping, routine service checks, various vehicle repairs and tyre fitting and balancing.

During my time at the garage I obtained a good all round knowledge of routine service and repair to vehicles.

Unfortunately due to lack of business at my placement I was not able to continue with this.

September 2011 – March 2013

Voluntary work

Whilst I have not participated in any official voluntary work,

I do however help care for my grandparents by taking them shopping and doing any errands that they may need carrying out.

I also help my dad with the general up keep and maintenance of the 3 taxis he owns.

Working placement with my father

I have worked with my Father as a labourer for 9 months on property maintenance carrying tasks such as basic electrical work, plumbing, painting decorating, plastering and laying carpets.

I also have non-professional experience in car valeting as my dad also owns three taxis which I regularly upkeep and keep to a high standard.

The past 18months

Hobbies and interest

Modifying and restoring cars

Walking my pet dog

Socializing

Computer games and general I.T
