Personal Profile Statement

I am an active job seeker who is looking to thrive and be the best in a working environment. I am very enthusiastic and a very approachable person with a strong drive to learn and develop in the role I am employed in. I have great communications skills and confidence which will be key during any job role. I am a fast thinker and can solve a dilemma whilst maintaining a professional manner. I am motivated and want to strive to make myself better everyday and learn. I enjoy challenges that are thrown my way and have all different types of flexible approaches. I have a clean fully qualified driving license, which I passed on the 23rd of April 2021.

Hobbies/Interests

My main hobby is football but I do love to play all kinds of sports. I like to stay active keeping myself fit and healthy both physically and mentally. I currently play for a football team called the Vineyard and up until 2017 I was at Tranmere Rovers under 21/23s, where I competed at a high level in team situations. My main goal for the future is to travel, experience different cultures and have a better insight on the rest of the world.

Education

Academically educated to a good standard receiving 4 GCSEs from C and above. From School I went to a college programme based at Tranmere Rovers football club where I not only progressed in football but thrived on my education. After the first year I received a Subsidiary Diploma with a MERIT grade in Sport. In this programme I studied different types of team sports and coaching techniques which I can use in future job roles such as leadership, encouragement and motivation. After 2 years of college I then continued to stay with Tranmere as they joined with Colchester University to make a base at Tranmere where I still continuously trained for my football and worked on achieving my Higher National Certificate (HNC) in sports and exercise science (coaching science). My overall grade was a PASS for the HNC, This year I studied more about nutrition and working more with the community such as coaching this shows that I have had the experience of dealing with different types situations from training with my team to training a completely new team making sure I was professional and was on control as well as creating a good environment for the other people around.

Employment

Pilot boat, November 2016 to December 2016

Washing dishes (rapidly ready to be used again whilst maintaining good hygiene)

Wiped down all kitchen surfaces and mopped the floor

I would also help the chef in the kitchen by going to get the ingredients he needed to make high amounts of meals

Received and unloaded incoming shipments

Phoenix pool bar, April 2017 to June 20

- My role was to help the manager go to the big store to help buy all the items she needed
- Heavy lifting
- Organisation
- Handling expensive goods

ASDA, December 2020

- I started as a marshal (standing at the front of the shop making sure everyone who entered had a mask on or offer masks out to those who needed them)
- Whilst doing the marshal role I also practised on the tills and would help when the other colleagues were overloaded
- I then moved to a different department (home shopping) where I have to pick orders which we receive the previous day, making sure the customers items are delivered quickly and carefully to maintain the items quality.
- I have been trained in security and covered this role for 4 weeks until the security guard was back from a leg injury
- I worked on produce the help when the shop was extremely busy, making sure all the fruit and veg was fresh and making sure all the shelves were full for customers
- Helping customers who have any questions or specific needs quickly and efficiently to maintain great customer service.
- From May 2022 I have been a delivery driver, delivering to multiple different locations, and making sure all the food and other goods are delivered on time, fresh and in good condition.

HGV experience

I am newly qualified HGV class 1 driver who got my license on 01/06/23 (I trained for 6 weeks to get the license). I have also gained experience and confidence doing voluntary work for TATA Steel which was for class 2. Whilst at TATA Steel I experienced doing multi drop work, I learnt how to strap and secure all different types of heavy goods. I also learnt how to unload from the vehicle using an automatic pallet pump truck safely and carefully to maintain the quality of the goods and the safety for myself.
