EXPERIENCE

Ocado, Andover — *Customer Service Team Member*

April 2024 - PRESENT

I drive a 3.5-tonne van, delivering groceries to customers with a smile. I ensure that the customer has an outstanding experience every time they receive a delivery.

After a period of ill health, I decided to pursue a career in driving, as it is something that I love doing.

During my time at Ocado I have helped implement various improvements in systems, processes and software.

Various NHS Organisations — *GP*

September 2003 - April 2020

I have previously pursued a career in medicine. I have held various roles, including hospital posts such as emergency medicine. I then trained as a GP. As a GP, I have also held various positions, including partner in a practice, salaried GP, and Clinical Director of the South West Urgent Care Service.

EDUCATION

University of Leicester, Leicester — *Medicine MB ChB*
