EMPLOYMENT HISTORY

Revive Property Maintenance (Owner); Based in Huddersfield but mobile

2014 - 2021

I am currently self-employed and I have owned and managed my business for the past 6 years. My business carries out any work associated with groundworks and cavils, roofing, walling, drainage, concreting and general property maintenance both internal and external.

I deliver high standards of work and pride myself on building long term relationships with customers based on my local knowledge, craftsmanship and expertise, and work outside in all-weather to complete the job. I am reliable, experienced and work to a very high standard and provide a professional and affordable service with a smile. I am always available for my customer 24/7 for any emergency repairs as required.

Cross-lee PLC; Halifax

2013-2014

Cross-lee plc is established as Europe's largest independent tumble dryer manufacturer. As the tumble dryer specialists, the company has the experience and resources to produce over 600,000 units per year. Sold throughout 75 countries across the globe, was employed here as seasonal worker to support life style and standards.

Enviro Plastics LTD; Bradford

2011-2012

I worked with this company briefly during my holiday period and following this was offered a temporary position as works manager.

Role and responsibilities:

- Effectively delegate workloads between staff and direct and assist them in daily functions,
- Maintain stock quality, ensuring the highest quality and consistency of outgoing products,
- Supervise and motivate staff to achieve and exceed set output targets,
- Implement staggered breaks to ensure continuous use of machinery at all times
- Ensure all staff follow Health & safety procedures,
- Liaise with Management on stock levels, Health & Safety issues, personal matters,
- Maintain the confidentiality and integrity of the company and its contents at all times,
- Oversee and be responsible for incoming and outgoing stock as directed by the Management, including quality and consistency, recording of weights and paperwork, safe loading and unloading

Iplas Innovative Recycling Technology; Halifax
2010 - 2011

Employed as machine operator, which included both extruder's and injection moulding machines, as well as shredder, Granulation and mixing equipment to recycle old plastic produce into new items. i.e. sleepers, bollards, decking, tongue and groove, nailer's.

Iplas Machine Labour; Halifax
2008-2009

As above in 2010 position of employment was with the same company but with a different department on a day shift rota. Working with maintenance to ensure smooth running of shop floor machinery.

Jenson; Huddersfield
