HAIRSTYLING DEVELOPMENT HISTORY

When I transitioned to a freelance mobile hairstylist, I joined a freelance federation and began actively developing my career by completing a select number of courses each year. Despite having no prior experience in long hair-up styling, I was determined to become a wedding hairstylist. This drive ignited a deep passion for hairstyling, and I specialised in wedding hair and makeup, refining my skills and expanding my expertise.

As my career progressed, my passion evolved into session hairstyling and editorial work, further broadening my skill set and creative expression.
