Summary

I am eager to apply my skills and passion in your organization. I am excited about this opportunity to work with your team, and I am a very reliable and dependable person, especially when the situation calls for problem-solving abilities. I am a fast learner, and I tend to be a team player with hard work and a just-in-time frame of mind.

In addition, I have supported a number of project management efforts that required careful feedback and continuous change. For example, I have worked on manufacturing projects where I was able to help identify and create solutions to improve product quality while managing time. As well as voluntarily helping structuring furniture when in need with a time effective manner.

Experience (Volunteer work experience)

Warehouse Operative- John Lewis Milton Keynes

July 2024 - October 2024

- Correctly picked and packed orders placed by customers ensuring they went out as they should, and on time.
- Manual handling of heavy and bulky goods and support tasks when the warehouse was busy.
- Met the speed and accuracy of picking and packing orders in a fast-paced environment and on time during demanding retail seasons.
- Worked well with a team to achieve and achieve and exceed daily expectation.
- The role required strict adherence to health and safety protocols and demonstrated an excellent understanding of current best practices.

Painting/ Scrubbing paint privately May 2024 - June 2024

- Prepared and cleaned all gate and wall surfaces to remove dirt so that paint could adhere; filled cracks and holes when necessary.
- Masked off areas, primed the surfaces, then painted several even coats (using brushes and rollers) to obtain a long-lasting finish.
- Cleaned tools at each stage of the project and cleaned areas-once the job was finished.
